OBJECTIVE

As a diligent and dedicated individual with proficiency in the mentioned languages and frameworks, I am eager to apply my technical skills, innovative thinking, and strong problem-solving abilities to make valuable contributions to the success of a dynamic organization.

EDUCATION

- MSC (Computer Science) | Government College For Women | Kumbakonam

  2020 - 2022
  GPA - 9.24

- BSC (Computer Science) | Government College For Women | Kumbakonam

  2017 - 2020
  GPA – 8.17

PROJECT DETAILS

- **Exam Hall Seat Allocation System (Angular, Springboot, Postman)**

  The Exam Seat Allocation System presented in this study aims to streamline the process of allocating seats for exams in educational institutions. Upon selecting a specific room number, the system retrieves real-time data on available seat lengths and updates the Excel sheet accordingly. This allows administrators to quickly allocate seats to students while ensuring optimal utilization of space within examination halls.

- **Employee Management System (Springdata JPA, Postman)**

  The Employee Management System using Java Persistence API (JPA) is a project aimed at efficiently managing employee data within an organization. Utilizing JPA, the system stores employee information such as personal details, job roles, and performance records in a database. Through the system, administrators can add, update, and delete employee records, while employees can view and update their own information.

SKILLSET

- Basic knowledge in C
- Java
- Springboot
- MySql
- HTML, CSS, JavaScript
- Bootstrap
- Angular Js

CERTIFICATIONS

- **Java Fullstack Web Development** Course completed at Techsquare Kumbakonam

TOOLS

- Eclipse
- Spring Tool Suite
- Visual Studio Code
- Postman

STRENGTHS

- Creativity
- Quick Learner
- Problem Solving
- Team Collaboration
- Self-Motivation

PERSONAL DETAILS

Father's Name	:	REGUPATHY.R
Date of Birth	:	12-11-1999
Language Known	:	Tamil, English
Address	:	1/45,Konthagai,
